First hour FREE emergency stabilisation			✓
FREE minor procedures, sutures and dressings			✓
FREE pathology (specified tests only)			✓
FREE pharmacy (items stocked in dispensary only)			✓
Contract fee per eligible user upon signing contract	PGK 525 per adult or child	PGK 1,050 per adult PGK 630 per child	PGK 4,200 per adult PGK 1,575 per child
Excess payable	Inpatient admissions only	Inpatient admissions only	Inpatient admissions only
Family Plan (2 adults / 2 children - under 12)	PGK 2,100	PGK 3,360	PGK 11,550

Our membership plans give you full access to the suite of private services at our clinic.

If required to pay fees at presentation, the clinic administration team will provide an invoice for this payment to you so that you can present the cost to your insurance provider for claim against your medical cover. We will invoice you or your nominated insurer (depending on the contract agreement) for the remaining 80% of the services provided.

PROACT Emergency Assistance Support

Extending support in partnership with Dynamiq

Aspen Medical Harbour City has now secured an arrangement with Dynamiq, an Australian-based emergency assistance company, to utilise their Dynamiq Assist service.

With this additional 24/7 Emergency Assistance cover for corporate clients, your team can access:

- 24/7 Emergency Operations Centre (located in Sydney)
- A network of 750,000 global service providers to support you through emergencies
- Online Country Risk Intelligence Portal (for travel preparation)
- Mobile Phone Travel Assistance Alerts (SMS and email)
- Emergency Response Protocol (keeps your key stakeholders informed of events)
- Pre-travel e-Learning Modules (online access to range of travel topics)
- Quarterly travel risk briefings
- Seamless support to any type of emergency event or incident.

Aero-Medical Evacuation (AME)

Integration with your service provider

We have provisions in place for Aero-Medical Evacuation (AME) from Papua New Guinea to all major eastern seaboard ports in Australia, as well as other regional locations in Asia and the Pacific. We will work in partnership with Dynamiq Assist service, or your insurer to manage the evacuation and any associated costs for this service, charging on a fee-for-service basis.

We will disclose and detail any out-of-pocket expenses accumulated from an evacuation or repatriation, always keeping them to an absolute minimum. This means that case management charges at the end of these processes are well below the normal market rates.
